Subject: RE: New publication - ATR

Dear Tony-

Thanks for the info.

We'll purchase a copy for the PM USA Library.

Kathy

Subject: New publication - ATR

The following publication, the last for this year, has just appeared:

A.R.Tricker, B.G.Brown, D.J.Doolittle, and E.Richter.
Metabolism of 4-(methylnitrosamino)-1-(3-pyridyl)-1-butanone (NNK) in A/J mouse lung and liver and effect of cigarette smoke exposure on in vivo metabolism to biologically reactive intermediates.
In: P.M.Dansette, R.Snyder, M.Delaforge, G.G.Gibson, H.Greim, D.J.Jollow, T.J.Monks, and G.Sipes (Eds.) 'Biological Reactive Intermediates VI. Chemical and Biological Mechanisms in Susceptibility to and Prevention of Environmental Diseases' Kluwer Academic/Plenum Publishers, New York, Boston, Dortrecht, London, Moscow, 2001. pp. 451-454.

Don't rush out and buy the book (EUR 238 / USD 215), authors don't get royalties!

Best regards,
Tony
